INTRODUCTION

1.1 TITLE OF THE PROJECT:

The project is entitled "CALCULATOR SYSTEM"

1.2 PROJECT DEFINATION:

A calculator is a small electronics device. That perfoms calculations, requiring manual action for each individual operation.

1.3 OBJECTIVE:

- *I can evaluate Common Logs using a calculator.
- * I can codense log expressings using properties.
- * I can use Change Base Rule.
- * I can expand log expressions using properties.

1.4 TOOLS USED IN THE PROJECT:

Operating System	Windows 7
IDE	Turbo C++

ABOUT C :

C is a computer programming language that means that you can use c to create lists of instructions for computer to follow. C is one of thousands of programming languages currently in use. The c program structure oriented programming language, developed at Bell laboratories in 1970 by Dennis Ritchie.

C programming language features derived from an earlier language called "B" (Basic combined programming language -BCPL).

ABOUT C :

C is a computer programming language that means that you can use c to create lists of instructions for computer to follow. C is one of thousands of programming languages currently in use. The c program structure oriented programming language, developed at Bell laboratories in 1970 by Dennis Ritchie.

C programming language features derived from an earlier language called "B" (Basic combined programming language -BCPL).

CONCLUSION

Calculator system is a simple project. Here in this project used for it can evaluate common logs using a calculator. Calculators can do only addition, subtraction, multiplication, and division. it can use change base rule.

With very limited knowledge and on a very limited on a very limited period of time, it is really not very easy to work out complete and perfect software. Though we have tried our best to improve the quality of software there may be some limitations and drawbacks in it. even though calculators can do the basic operations instantly, students should not be using it all the time. When a student is always dependant on a calculator for solving problems of additions subtractions, multiplications, and division, it may make them incapable of solving these basic operations manually.

A PROJECT REPORT ON

"SIMPLE CALCULATOR"

DEPARTMENT OF INFORMATION TECHNOLOGY

Roll No. 2305010130028

Roll No. 2305010130033

Roll No. 2305010130044

UNDER THE GUIDANCE OF

Mr. Mohinder Singh

(Head of Department)

Mrs. Kaynat

(Asst. Professor)

ACKNOWLEDGEMENT

We sincerely take the opportunity to express our heartfelt thanks and gratitude to all those who extended their wholehearted co-operations, opinions and gracious hospitality to us in completing the project work successfully.

We would like to acknowledge our gratitude towards our teachers at **mini project lab (BCC 351)** under the egis of **RV INSTITUTE**, for their understanding provision of sound counsel and precious guidance. Finally, we wish to thank our friends for their support.

CERTIFICATE OF EXAMINATION

This is to certify that the project work " **Simple Calculator** " jointly submitted by RAMDHAN TIU RITURAJ RANJAN & VISHAL SAINI for the 3 rd semester of mini project course is a bonafide project work carried out by them under my supervision.

I wish them all success in future.

Thanks,

H.O.D

Department of Computer Science

RV INSTITUTE OF TECHNOLOGY

CERTIFICATE OF EXAMINATION

This is to certify that RAMDHAN TIU, RITURAJ RANJAN & VISHAL SAINI, of 3 rd Semester students of mini project discipline of **R V INSTITUTE, BIJNOR** have successfully submitted their project on "**Simple Calculator**" completed under the guidance of Mrs. Kaynat and Mr. Mohinder Singh. that was

Signature of Internal

DECLARATION

We RAMDHAN TIU, RITURAJ RANJAN AND VISHAL SAINI hereby declare that the project work entitled "**Simple Calculator**" is an authentic work carried out by us for the partial fulfillment of, 3rd semester of mini project of RVIT. This report has not been anywhere else for the award of any degree or diploma.
